KEYMACRO is an easy-to-use and powerful key recorder tool that allows you to create keyboard macros, record whatever key you want and assign hotkeys. The program supports all keystrokes including Win+L, Win+Tab, Win+D, Win+R and many more. It is a Windows desktop software that can record any keystrokes and capture any Internet activity.

---

KeyMacro allows you to add hotkeys that you can assign to any of the commands you want, plus you can save recorded hotkey to use it at any time. The program records mouse movements and clicks, so you can even record multi-click and multi-drag activities. KeyMacro supports automatic recording. You just need to start recording and set the recording options in the hotkey list. KeyMacro supports detailed recording and provides a variety of

---

options. You can adjust the logging time interval, set a minimum number of log entries, and count the log entries. You can even go deeper and view the command texts, command parameters and the registration points for each key. Besides, there is a clear button to help you find the command texts quickly. You can also control the program through its tray icon. You can create a keyboard shortcut on your task bar to launch it. Or you

---

can even create an application shortcut on your desktop to run KeyMacro with a single click. Supported languages: English, German, French, Spanish, Hungarian, Finnish, Czech, Romanian, Russian, Korean, Japanese, Chinese, and other 35 languages. KeyMacro supports platform as follows: Windows 98/2000/XP/Vista/7. A professional user: If you need to create a large number of keyboard macros, you

---

can use the AutoMode feature. If you need to review a macro to make sure you did not make any mistakes, you can use the MacroView feature. You can group similar macros. Use the three-step User Interface to make your job easier. System Requirements: Windows 98/2000/XP/Vista/7 You can download the full version of KeyMacro, KeyMacro Lite and KeyMacro Portable at the website [www.keymacro.com](http://www.keymacro.com) KeyMacro

---

Description: KeyMacro is an easy-to-use and powerful key recorder tool that allows you to create keyboard macros, record whatever key you want and assign hot

**What's New in the Cromberg?**

---

Cromberg is a simple but powerful and easy to use budget tracker tool. Its simple and intuitive design allows you to create a budget in minutes. You will never have to write more than your income and expenses. How to do it: Cromberg has a simple interface that allow you to create a budget easily in minutes. You can create the accounts you will track, enter data for each account. You can choose to

---

track income or expenses. For each account you can enter the following information. Sums can be entered in US dollars, Euros or Pounds Sterling. You can also choose to enter them by a calendar month or by week. You can assign a category to each account. You can then view your monthly budget, monthly totals and the amounts you have spent and received. You can also set the income and budget reminders for the month. To keep your budget up

---

to date, Cromberg automatically enters your income and expenses every day. You will never have to do any additional calculations. Your budget is easily updated and can be restored at any time. You can also export the data to Microsoft Excel files. If you use Microsoft Office Outlook, you can connect to your accounts and Cromberg will automatically import your accounts into Outlook. Limitations: Cromberg does not have any

---

limitation. It doesn't have any viruses or other unwanted software. This software may not work with all banking, accounting, and financial software. It is recommended to test this software with a free trial before paying for it. Good: - simple to use - easy to create a budget in a few minutes - works with all platforms (Windows and Mac) - can work with multiple accounts, all in one application - works with your email - can easily import your accounts

---

into Outlook - can export data in Excel format - no viruses or malware  
Bad: - basic UI and appearance - doesn't have a Mac version  
Description: Cromberg is a simple but powerful and easy to use budget tracker tool. Its simple and intuitive design allows you to create a budget in minutes.
